

# NEW MOON PADS

## Cloth Menstrual Pads

Simple, easy, back to basics.

New Moon Pads all-in-one design conforms naturally to your shape. Only high quality fabrics are used for maximum absorbency, breathability, and leak resistance, giving you the ultimate in comfort and protection.

New Moon Pads are the environmentally friendly, sustainable choice for a positive healthy period.

Combining beauty, comfort & function.

## THE BENEFITS OF CLOTH PADS

### Health

Potentially decrease your flow, period discomfort, skin irritation, and risk of yeast infections. Most women report that switching to cloth has made most or all of these changes in their monthly cycle.

### Environmental

The average woman will throw away between 10,000 and 15,000 disposable menstrual products in her lifetime. Compare that to cloth. If a woman purchased 20 to 25 cloth pads every 10 years she would have gone through only 80 to 100 cloth pads total.

### Financial

New Moon Pads pay for themselves in just 1-2 years from the cost of disposables and last up to 10 years (twice as long as other cloth pads), which means you get 8-9 years of cost free menstrual protection.

	Petite	Average	Tall / Plus
Liner	Elemental	Elemental	Elemental Long
	X-Small	X-Small	Small

Heavy	Medium	Large	Large
		X-Large	X-Large
Overnight	Large	X-Large	X-Large

Made in  
Comox, B.C.  
Canada

## HOW TO USE

**Wing tabs are sewn to front of pad** so when wrapped around to the underside they form a gentle contoured shape. Place pads with print side facing up (the side with the channel stitching) and the fleece side against panty, wrap wings out, down, and around panty gusset and snap into place. For wingless pads just lay in and go, the fleece backing against panties helps prevent slipping. Use regular snug fitting panties with cloth pads for best fit.

## WASHING INSTRUCTIONS

**Launder pads prior to initial use.** Wash right along with regular laundry in cold water (hot will set blood stains). Presoaking optional. Machine dry on regular cycle or hang to dry. Do not use bleach. Do not use fabric softener or dryer sheets as these coat the fabric fibres and decrease absorbency.
